A Brown acquires Vires Energy, to put up LNG Terminal in Batangas

A Brown Company, Inc. (ABCI) announced on Thursday, June 18, 2020 the acquisition of 99.995% of the outstanding capital of Vires Energy Corporation (VEC) owned by Argo Group Pte. Ltd. of Singapore.

VEC was incorporated in 2015 and is the proponent for the Integrated Floating LNG Storage and Regasification Terminal and the 506MW Floating Natural Gas-Fired Power Plant Project located in Barangay Simlong, Batangas City. VEC has already secured the Environmental Compliance Certificate (ECC) for the project and has also registered the project with the Board of Investments to avail of incentives.

Natural gas supply from Malampaya is expected to decline and reach its economic production threshold by the Mid-2020s. VEC will build the necessary infrastructure to allow the importation of liquefied natural gas (LNG) as early as 2022.

The project will have a Floating Storage and Regasification Unit (FSRU) Terminal in Batangas Bay, Philippines and will deliver natural gas through a pipeline to supply existing and new natural gas-fired power plants.

The acquisition brings together a strong technical management group to see the project through. Dr. Walter Brown will assume the role of Chairman of VEC. He brings in 55 years of experience in the local energy and oil and gas exploration sector, having led the biggest Philippine companies in the industry: Philex Petroleum, Atok Big Wedge, Monte Oro Resources and Energy, National Grid Corporation of the Philippines, to name a few. Mr. Eduardo "Ed" Manalac will remain as President and CEO of VEC. Mr. Manalac brings in 35 years of professional experience in the global petroleum industry having worked in more than 20 countries. He also previously served as Undersecretary of Energy and President and CEO of the Philippine National Oil Company (PNOC).

"The acquisition of Vires Energy reflects our confidence in the role of Natural Gas in providing for a clean and cost-effective energy source. We are excited to push the project forward," A Brown Chairman Walter Brown said.
